

LETTER TO ALL COACHES

To: All interested Coaches

Through our experiences, both professionally and personally, we recognize the headaches associated with locating quality athleticism among the thousands of athletes across the U.S.

Understanding that you have so many athletes to evaluate in such limited time, we design Athlete Portfolios so you can review all their pertinent information in one, convenient place. By recognizing the enormous expenditure of time, money and energy that goes into the Recruiting process, we try to make things as easy as possible for both the Coaches and the Athletes.

Sports change all the time. You need an edge to reach, or stay at the top. Every year, hundreds of exceptional Athletes never get recruited because they attend High Schools that are not on your radar (some can't even be found on a map). Our system enables you to see all of these Athletes without leaving the comfort of your office. The advantage we offer to our Athletes, no matter where they're located, they get equal exposure using our system. It's their talent and abilities that will get them on your Roster, but first you have to know they exist.

We save you time by finding and presenting an Athlete's skills, without your having to sit through an entire game. Our Highlight Reels cut straight to the point, showing you what you need to see. You don't have to spend hours watching game films. Who couldn't use more hours in their day!

We take pride in producing the highest quality videos possible. We add graphics to our reels so you can see what's most important. You won't have to strain your eyes trying to find an Athlete among the crowd. Our Videos isolate and emphasize the Athlete's performance, making it that much easier for you to make your decision.

Feel free to browse. If there's anything we can do to help you, please feel free to contact us today.
